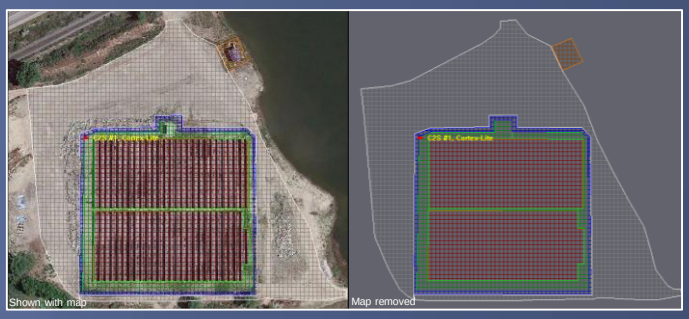
Chase 2 Station LITE Features

SLICE Processor

MIL Rated IP67 Enclosure
Chase2Server™ Analytics and DVR
Slew/Zoom to Target at Geo-Location
Cortex-Lite™ Command & Control Software
IP Ethernet Communication (4G/LTE or Wi-Fi)



CataPult20™ Mast

Stable Video Analytic Platform
SST Cable Races, Hardware & Fasteners
Integrated Lowering System – No Bucket Truck
Mast Height 20' (6.1m), Dome Height 22' (6.7m)
Single man installation in remote areas

See-Through Dome Mount (STDM)

Efficient Site Monitoring from a Single Camera.

Novel 360˚ Field of View – Patent Pending

The picture shows the PTZ camera looking back towards the mast. Although visibility is good, a section remains blocked Increase zoom and the camera can see through the mount, eliminating the need for multiple cameras facing each direction. Video analytics detecting activity at the perimeter behind the camera.
